UNITY HEALTH NETWORK

COVID-19 RESTART & RECOVERY SAFETY GUIDELINES FOR OUR PATIENTS

COMMUNICATION

We utilize pre-visit phone calls, appointment reminder calls, in-office signs and email messaging to help provide detailed information about your visit while limiting interpersonal interaction

SCREENING

All Unity Health Network physicians and staff, patients and visitors are assessed for any current or recent fever, cough or shortness of breath before admission to our offices

DISTANCING

All offices have new "stop" signs on entrances with COVID-19 alerts. Remote "waiting" rooms allow patients to stay in personal vehicles until it is time for their appointment. Limited waiting room capacity and installed 6-foot floor markers are in place to ensure proper social distancing

MASKS AND PPE

Masks and any additional appropriate personal protective equipment (PPE) are required for all physicians, staff and patients in patient-facing situations

CLEAN ENVIRONMENT

Purell stations and sterilized wipes are available at all check-in and check-out locations and in exam rooms and public areas. Surfaces such as exam tables, counters, chairs, door handles and restroom facilities are regularly cleaned throughout the day. All exam rooms, offices and restrooms are deep cleaned daily

SAFELY WEARING AND USING A MASK

BEFORE PUTTING ON A MASK, CLEAN HANDS WITH SOAP AND WATER OR ALCOHOL-BASED HAND RUB

PUTTING ON MASK

- Hold the mask by the ear loops and place a loop around each ear
- Cover mouth and nose with the mask and make sure there are no gaps between your face and the mask
- Don't wear makeup/lip color under mask
- Be mindful that excessive facial hair/beards may deteriorate mask integrity

AVOID TOUCHING THE MASK WHILE USING IT; IF YOU DO, CLEAN YOUR HANDS AGAIN WITH SOAP AND WATER OR ALCOHOL-BASED HAND RUB

REMOVING MASK – REMEMBER TO REMOVE IT FROM BEHIND (DO NOT TOUCH THE FRONT OF MASK). HOLD BOTH OF THE EAR LOOPS AND GENTLY LIFT AND REMOVE THE MASK
